

This is Client comment on Instrument list .
I sent this file to them. they responded on 2026.03.07 and provided some comments.
Please ask Ali to check their comments.
make a clear list based on what they have requested. Discuss with Payam and then see if the request form client is ok and acceptable. Then provide that clear list of required changes. then I can supply it to Chinese and get their opinion as well. after that we should update the Instrument list.
Like all other document when you got final document from Ali & Payam , you study it and make sure it is what I requested and correct. Thanks very much.
